Month	Continuing Education Courses *(non-license related)*	Course Dates
September	Residential Fire Alarm	September 9, 2027
CALL	Video System Technology	CALL
CALL	Electronic Access Control	CALL
October	Professional Fire Alarm Design	October 13-15, 2027

Additional course topics available. Private classes available for 10+

Understanding the NYS Security / Fire Alarm Installer License Requirements:

Need for license: An individual, firm, company partnership or corporation must be licensed if it installs, maintains or services alarm systems, including, but not limited to, such items as detectors, control devices and alarm com-munication systems, conduits and associated wires of alarm systems; or if it holds itself out to the public as being able to do so. **This shall include, but not be limited to**, selling alarm systems to consumers when the installation, maintenance or servicing of the alarm system will be subcontracted to or otherwise performed by another;

A **security and fire alarm installers license is required for the installation, maintenance or servicing** of a closed circuit television system (CCTV), or video surveillance system, if such system is used, either full-time or part- time, for the detection or monitoring of intrusion, break-in, theft, movement, sound or fire; and electrical entry systems which detect and/or provide notification of intrusion, break-in, theft, movement, sound or fire regardless of the number of entry points.

Who Should Attend? *Technicians, service personnel, installation personnel, sales staff, and business owners.*
